

CD Roots

After almost 40 years on stage, Olah Vince, a legend in Novi Sad, is taking Earth-Wheel-Sky-Band into the future. The group's instrumentation is pretty basic for a gypsy band: guitar, violin, cimbalom, double bass, percussions, voice and no electronic gadgets or keyboards. In their musical world, expression is everything. Olah Vince, a Gypsy activist, is doing things like trying to establish Gypsy radio in Novi Sad to further the cause, but the band is all he really needs. This band's last recording was a big hit here at cdRoots. This one lives up to expectations!
