New CD:

Toni Iordache: 'Sounds From a Bygone Age vol. 4' Asphalt Tango Records CD-ATR 1307

Tambal. Roma. Lautari. Romania. On their continuing effort to spread old-world lautari music from Romania to a broader audience worldwide, German label Asphalt Tango this time unveils another gem; the tambal player Toni Iordache. Iordache was one of the first players to elevate his instrument's status from the role of accompaniment to a solo instrument. Likewise he was one of the few to lead his own orchestra. Among tambal players then and today, the innovative Iordache was and is regarded simply as 'the best'. Among the participants on this sparkling disc you'll find the legendary singers Gabi Lunca and Romica Puceanu plus muted trumpeter Costel Vasilescu.
