### **ASPHALT TANGO**

KAL/Radio Romanista: A genre bending set from Serbia that finds some musical gypsies taking root in the three years since their debut got wide acclaim. Adding a world view to the musical arsenal, this is fine bet for world beaters to take to in the search for something new and contemporary that shakes off a lot of old, ethnic vestiges for forward thinking music that retains an ethnic identity. Pretty hot stuff that gets the party started in any language.
